

Plan for your future now.

Get in the Game.

Make graduation
your goal.

Winner

GRADES 6-8

CL 72

You could win \$529 for college! One winner in each grade will receive \$529 in an Indiana CollegeChoice 529 Savings Plan, good for any education-related expenses. Learn more about the 529 Savings Plans at LearnMoreIndiana.org/529.

Here's the game plan:

- 1) Fill out your name and other information on this page.
- 2) Complete the "Degree Pathways" activity on the following page.
- 3) Mail both pages to:

Learn More Indiana
Attn: Contests
101 W. Ohio Street, Suite 550
Indianapolis, IN 46204

Or, scan both pages and email them to
contests@learnmore.org.

NAME:	Jasmine Martin
GRADE:	7 th
SCHOOL:	McCullough Academy
ADDRESS:	
CITY:	ANA
ZIP:	4
PHONE:	
PARENT:	am

Don't sit on the sidelines! All entries must be postmarked or

th pages.

After completing the "Degree Pathways" activity, ask yourself:

How does my high school plan match with my college and career plan?

In order to become a Prosecutor, I must sharpen my Language Arts and History skills. I must also graduate with a Core 40 with academic honors diploma to successfully enroll in to a great law program. I must also be an excellent persuasive public speaker who can effectively present a case based on past historical cases. That is how my highschool plan will match my college plan.

DEGREE PATHWAYS

How can you plan for your future while in high school? Your high school diploma, course choices and college applications will all help determine your future.

Justin loves learning about electricity and is good at fixing things with his hands. His career goal is to be an electrician. Circle or shade all the light bulbs that represent something Justin should do in high school to get ready for his career and the education he'll need.

Answers

Diploma: Core 40 with Technical Honors.

This diploma makes sure Justin earns enough math credits to enter an electrician's apprenticeship. Plus, it allows him to take electrical and construction courses in high school.

High School Courses: Construction Technology, Residential Wiring (Dual-Credit), Geometry, Algebra II. These courses will prepare Justin to learn more about electrical wiring. He'll need plenty of math to get into an electrician's program.

College Application: Electrician's Apprenticeship (4 Years) None of the other choices lead to certification as an electrician, which Justin will need to practice in the industry.

Your Turn! You can start planning your career pathway now, too.

My skills & interests (Think about recent test scores, your hobbies and what you like to read about.)

Math, Language Arts, Debating, Drawing, and I like to read Mystery stories.

Career options (Enter results from a career interest inventory, or up to three careers you think match your skills & interests.)

Prosecution Lawyer
